PENNSYLVANIA UNIFORM CONSTRUCTION CODE
ICC CODE CHANGES OF 2015 RECOMMENDATION FORM

Date Submitted:	February 9, 2018
Proposer's Name Company Affiliation (if any): Address: Telephone: Email:	Dennis Maloskey Pennsylvania Department of Environmental Protection 400 Market Street, Harrisburg, PA 17101 717-705-0372 dmaloskey@pa.gov
ICC Code:	2015 International Existing Building Code (IEBC)
ICC Code Change Number :	N/A
Code Section(s):	All
This is a Recommendation:	☒ To Adopt the Change ☐ To Not Adopt the Change
For the Following Reasons: (Provide Details Below)	☐ Health Safety and Welfare ☐ Technical Feasibility ☒ Economic and Financial Impacts ☐ Other (Specify Below)

Detailed reasons for your recommendation. Provide relevant data to support your position when possible.

The 2015 IEBC contains requirements intended to encourage the use and reuse of existing buildings. The scope of the IEBC covers repair, alteration, addition and change of occupancy for existing buildings and historic buildings. It also achieves appropriate levels of safety, without requiring full compliance with the new construction requirements contained in the other I-Codes.

In June 2015, the United States Department of Energy Pacific Northwest National Laboratory analyzed the cost-effectiveness of the residential provisions of the 2015 International Energy Conservation Code (2015 IECC). Based on that analysis, if Pennsylvania advances our baseline 2009 IECC to 2015 IECC, home-owners will realize a life cycle cost savings of $7,697 to $11,231 per home, depending upon climate zone. Additionally, advancing Pennsylvania's commercial building codes from the current 2009 IECC to the 2015 IECC will result in a 30 percent energy consumption reduction and $0.53/sf savings.
