I am writing a letter to express my gratitude to the individuals who make the Kids' Chance Scholarships possible. Congratulations on 25 years as an organization! It's amazing that you have been able to help so many young adults throughout the years! It is my final year at Duquesne University and I am majoring in Mathematics. The scholarship is very important to me because it relieves a great portion of the financial stress that a university degree possesses. The scholarship allows me to focus on my studies rather than the monetary aspect. I plan on graduating with a major in Mathematics and a minor in Theology. I am very appreciative of this scholarship as it has a great impact on my life. It helps in so many ways that most individuals would not understand. I will continue to put this scholarship to good use and focus intently on my studies with as much effort as possible. Thank you for everything you do, you are truly life changing!
