

Checklist for Training Employees to Use and Care for Eye and Face Protection

Train your employees to know:

- Why eye protection is necessary, i.e., the workplace hazards that threaten their eyes
- How the eye protection will protect them
- When they must wear the eye protection
- How to put the protective eyewear on properly
- How to adjust straps and other parts for a comfortable and effective fit
- How the protective eyewear fits over or contains an employee's corrective lenses
- How to identify signs of wear, such as:
 - Chipped, scratched or scraped lenses
 - Loss of elasticity or fraying of head bands
- How to clean and disinfect the safety eyewear
