Local plan is a four-year action plan to develop, align, and integrate service delivery strategies and resources among the six WIOA core programs and partners in a specific local area. The local plan should support the achievement of the state's vision and goals, as outlined in the state plan.

Local workforce development area, or local area, serves as a jurisdiction for the administration of workforce development activities and execution of adult, dislocated worker, and youth funds allocated by the state. Such areas may be aligned with a region identified in WIOA Sec. 106(a)(1) or may be components of a planning region, each with its own local board. The Governor must designate local areas for the State to receive adult, dislocated worker, and youth funding under title I, subtitle B of WIOA.

Local areas are also the areas within which local boards oversee their functions, including strategic planning, operational alignment and service delivery design, and a jurisdiction where partners align resources at a sub-state level to design and implement overall service delivery strategies.

Local workforce development board(s), or local boards, are regional entities created to implement the Workforce Innovation and Opportunity Act of 2014 (WIOA), which authorizes and funds employment and training programs in the United States. The local board's main role is to direct federal, state, and local funding to workforce development programs. Every community in Pennsylvania is associated with a local board. Local boards develop workforce and regional strategies, as well as conduct and publish research on the needs of their regional economy. Local boards also provide oversight and coordination of the workforce services provided in their region and the overall operation of the storefront delivery of these services at PA CareerLink® locations.

For each local board, a chief elected official (a county commissioner or the mayor of a major city) appoints members to sit on the local board. These appointed positions are unpaid. A majority of a local board's membership must come from private businesses. There are also designated seats for representatives of labor and educational institutions, such as community colleges.

Partnerships for regional economic performance, or PREP, is the Pennsylvania Department of Community and Economic Development's, or DCED, designated ten (10) regions designed for the purpose of long-term strategic economic development planning and investment throughout the commonwealth.

Pennsylvania CareerLink®/PA CareerLink® is the registered trademarked name of Pennsylvania's one-stop workforce development service-delivery system, including each one-stop center and public-facing aspects of the online job matching system used by individuals, job seekers, employers, program partners and providers, training providers and other stakeholders.

Pennsylvania Department of Labor & Industry, or L&I, is legally designated by the governor to serve as the state workforce agency.

Regional plan is a four-year action plan to develop, align, and integrate service delivery strategies and resources among the multiple local workforce development areas in the planning region. Regions are identified by the state, according to the requirements of WIOA Sec. 106(a) and 20 CFR 679.510, in order to align workforce development activities and resources with larger regional economic development areas and available resources. The regional plan must be consistent with the vision and goals of the state plan.

Required and additional partners are the entities that administer required programs or activities as described in WIOA Sec. 121(b)(1)(B) and 20 CFR 678.400, or the additional programs as described in WIOA Sec. 121(b)(2)(B) and 20 CFR 678.410 in a local area. Required programs and activities are mandated to be made available in the PA CareerLink® delivery system while additional programs may be made available if approved by the CEO and the local board. All partners must enter into a memorandum of understanding, or MOU, with the local board.

Workforce Innovation and Opportunity Act, or WIOA, superseded the Workforce Investment Act of 1998, or WIA, and amended the Adult Education and Family Literacy Act, the Wagner-Peyser Act, and the Rehabilitation Act of

1973. To help businesses and job seekers meet their needs, the workforce system established under WIOA is integrated by design. WIOA envisioned connecting businesses with job seekers, through meaningful partnerships among workforce, education, human services and economic development entities ensuring optimum results and resource leveraging. The law addresses job seekers' needs by establishing a workforce system delivering access to employment, education, training and support services to succeed in the labor market. Through the PA CareerLink® one-stop system, WIOA addresses employers' needs by connecting them with skilled workers able to compete in the global economy.
