

Blurry vision. Struggling to hear. Hearing nothing. What is that like?

This is not your typical workshop! It is designed to give you a glimpse of how a person who is deaf, deaf-blind, or hard of hearing functions daily. The workshop includes discussion and hands-on activities. The tables are turned! You will perform tasks using technology, ear plugs, and simulation goggles!

The workshops are:

- Free
- Limited to 20 people per session
- Offered multiple times during the expo
- Requiring registration
 - Day of registration accepted, as space permits
