ODHH has been working daily at PEMA to ensure clear communication access is available for the deaf and hard of hearing population across the Commonwealth. The interpreters that are working with ODHH works with during the daily Press Events are Certified Deaf Interpreters.

Department of Aging – Rebeca Lorah

In January, I met with staff at OVR, along with Robert Torres, Secretary of Aging, and PDA Digital Director to discuss accessibility guidelines for the PDA website and for the PACE website (<https://pacecares.magellanhealth.com/>). The PACE website will soon be revamped by the PACE contractor and I want to endure web designers follow accessibility guidelines.

The Division of Newborn Screening and Genetics received funding from HRSA for a four-year grant which started on April 1, 2020. The PA EHDI program will focus on four main methods to achieve project objectives. The focus areas are:

- Leading efforts to engage and coordinate all stakeholders in the EHDI system to meet the program goals
- Engaging, educating, and training health professionals and service providers in the EHDI system
- Strengthening the program's capacity to provide family support and engage families with children who are D/HH as well adults who are D/HH
- Facilitating improved coordination of care and services for families and children who are D/HH
