Training Certificates Required	<p>If this is your first time applying in Pennsylvania, you must either provide copies of ALL Asbestos Training Course Certificates including your Initial Course OR your most recent Asbestos Refresher Training Course Certificate with a valid out-of-state Asbestos license.</p> <p>If you have held a Pennsylvania Asbestos certification previously and are applying to renew it, you need to submit a copy of your most recent valid training course certificate and any training course certificate(s) taken since you last applied. However, if you are applying for a new type of certification (i.e., you were a Worker now applying for Supervisor, etc.) you must follow the first time applying guideline above.</p>
Certification Validation Period	<p>The validation period for all Pennsylvania Asbestos certifications coincide with the latest expiration date of the EPA or PA training certificate received by the applicant. This applies to initial training or refresher training certificates.</p> <p>For example: If you apply to renew your PA Asbestos Worker certification on April 1, 2009 with your latest refresher training certificate, which was issued on January 1, 2009 and valid through January 1, 2010, then your Pennsylvania certification will be issued as valid through January 1, 2010.</p>
Prior Enforcement Action	<p>The Department may deny an applicant's request for a certification based on prior enforcement actions indicating that the applicant's abatement work might not be performed in a manner that would protect public health, safety and welfare. If enforcement action has been taken against the applicant, the following information must be submitted:</p> <ol style="list-style-type: none"> 1. A complete list of all prior enforcement actions, including any sanctions imposed upon the applicant by any jurisdiction or any state/federal court. 2.
