<p>Additional Information</p>	<p>The Department permits importers to hold a Stuffed Toy registration for each factory (foreign or domestic) that manufactures stuffed toys for them. However, the Department does not permit an importer to hold a single registration for importing from multiple manufacturers. Pennsylvania requires each manufacturer/factory to be separately registered with the Department, whether on their own or with a specific importer.</p> <p>The following options for registration are available for manufacturers:</p> <ol style="list-style-type: none"> 1. The manufacturer may register directly with the Department for their manufacturing facility. The manufacturer can then place this registration number on any stuffed toys, which the Department has approved, that are produced at the manufacturing facility. 2. An importer may hold a Stuffed Toy registration for each manufacturer with whom they do business. Please note that the importer is required to hold a <u>separate</u> registration for <u>each</u> manufacturer; the Department does not permit “pooling” of registrations. <p>When an importer holds the registration for the manufacturer, the Registration Certificate will show the name of both the importer and the manufacturer. The Registration number can only be placed on stuffed toys, which the Department has approved, that are produced at the manufacturing facility <u>for the importer ONLY</u>.</p> <p>After receiving a PA Stuffed Toy Registration number, you must submit within 15 days of manufacture a new toy sample(s) to this office <u>if</u> you make any changes to the stuffed toy sample(s) previously approved by this office or <u>if</u> you begin to manufacture a new stuffed toy that is comprised of different materials than the stuffed toy sample(s) previously approved by this office. The new stuffed toy sample(s) must be approved prior to the previously approved manufacturing facility placing their registration number on the new stuffed toy(s). There is no additional application nor testing fee for new sample submissions.</p>
