International Fuel Gas Code

Re: Subcommittee Recommendation

Madam Chair,

As Chair of the International Fuel Gas Code review subcommittee, I respectfully pass along the subcommittee's recommendation as follows.

There was only one proposed change to the IFGC for the inclusion of 2018 IFGC 310.3 in the next version of the ICC Fuel Gas Code.

It was the unanimous decision of the members not to adopt this change. We recommend that this be tabled for the 2018 code review.

Respectfully submitted,

John E. Kampmeyer, P.E., F.NSPE, F.ASHRAE
